PROFESSIONAL SUMMARY

B.Tech AI ML graduate with hands-on expertise in Python, SQL, AI concepts and Full Stack Web Development, focused on writing clean code, debugging and engineering efficient, optimized software solutions.

SKILLS

- **Programming:** Python, C
- **Web Development:** HTML5, Tailwind CSS, JavaScript (ES6+), React, Node.js, Flask, REST APIs
- **AI & Automation:** Artificial Intelligence Concepts, OpenAI APIs, Gemini
- **Databases & Storage:** SQL, MongoDB, DBMS
- **Software Development:** OOP, SDLC, Agile Methodology, Computer Networks, Software Testing
- **Cloud & Tools:** AWS (Basic), Git, GitHub, VS Code
- **Soft Skills:** Problem Solving, Analytical Thinking, Collaboration, Communication

EDUCATION

- **Meerut Institute Of Engineering and Technology** Meerut, Uttar Pradesh
Bachelor of Technology - Artificial Intelligence & Machine Learning; CGPA: 7.7 2022 - 2026
- **Meerut Public School for Girls** Meerut, Uttar Pradesh
Class XII (PCM); Percentage: 87% 2021 - 2022
- **Meerut Public School for Girls** Meerut, Uttar Pradesh
Class X; Percentage: 89% 2019 - 2020

EXPERIENCE

- **CodSoft** Remote
Web Development Intern Aug 2024 – Sep 2024
 - **Web Development:** Built and deployed 3+ responsive web applications using HTML, CSS, and JavaScript during a 4-week internship.
 - **Performance Optimization:** Streamlined frontend assets, cutting page load time by 20%.
 - **Cross Browser Compatibility:** Ensured seamless operation across 5+ browsers, delivering responsive, user-centric interfaces.

PROJECTS

- **DecorVista - AI Powered Interior Design Platform:** Developed an AI-powered interior design platform enabling **real-time 3D room visualization** using React.js and Three.js. Improved user interaction experience by 15–20% through optimized rendering and responsive UI design. Integrated efficient frontend state management to reduce UI lag and enhance smooth interactions.
Tech: React, Node.js, Python(Flask), MongoDB, Three.js, Gemini API 2024 – 2025
GitHub: [Repository Link](#) | [Demo](#)
- **SkillSync AI Resume-Analyzer:** Developed an AI-based resume analyzer that extracts skills from PDFs and computes a skill match percentage against job-role requirements using **NLP-based classification**. Delivered automated skill gap analysis with ranked missing skills and personalized learning recommendations to improve job readiness.
Tech: Python(Flask/FastAPI), NLP, JavaScript, Tailwind CSS 2026
GitHub: [Repository Link](#) | [Demo](#)
- **AI Component Generator:** Built an AI-based tool that converts natural language prompts into reusable React components using Gemini API. Improved frontend development speed by 30% by **automating UI code generation**. Implemented live preview, editable code sandbox, and export functionality for developer efficiency.
Tech: React.js, Vite, Tailwind CSS, JavaScript, Gemini API 2025
GitHub: [Repository Link](#) | [Demo](#)

ACHIEVEMENTS

- **Solved 387 DSA Problems:** Practiced coding problems on GeeksforGeeks.
Profile: [GFG](#)
- **Project Expo Selection:**
Final Year Project selected for Technovate 2026 conducted by MIET, Meerut
- **1st Runner-Up - Project Presentation:**
Secured 1st Runner-Up position in departmental-level project presentation. [Certificate](#)

CERTIFICATIONS

- Generative AI – IBM SkillsBuild & Modern AI – Cisco [IBM / Cisco](#)
- Prompt Design in Vertex AI Skill Badge – Google Cloud [Link](#)
- Full Stack Development – Wipro [Link](#)
- Data Structures and Backend – Coursera [Link](#)
- SQL Advanced – HackerRank [Link](#)
- MongoDB Certification [Link](#)
- Data Analytics Essentials – Cisco [Link](#)
